Computer Science graduate with internship and personal project experience seeks to obtain an entry level position as a software developer.

Authorized to work in the US for any employer

WORK EXPERIENCE

Web Developer

Clarion Students' Association - Clarion, PA - August 2015 to May 2016

- Used PHP, HTML, CSS, and Javascript to develop a user friendly, dynamic, and responsive web- site to advertise their services
- Worked with the senior web developer at Clarion University to develop web designs to be integrated into the university's content management system, OmniUpdate.
- Developed new features that were desired after the development for the website was in motion
- Used the TMDb API to retrieve information for movies that were displayed at the university movie theater

Internship

PennKraft Building Systems LLC - Knox, PA - March 2015 to August 2015

- Developed a modern-looking and user-friendly website using HTML, CSS, Javascript, and PHP
- Transferred hosting services, redirected old links, setup email accounts, and transferred old domain names
- Developed a browser-based client management interface to efficiently organize and retrieve clients' information
- Developed an automated system and interface for clients ordering homes
- Maintained website and server-space
