WORK EXPERIENCE

### Web Developer

Marketing Edge Group  -  North Brunswick, NJ  -  September 2016 to Present

I am currently a full time Web Developer at MEG Digital, a marketing company that has more than a few FORTUNE 500 companies. I create websites/pages/web applications for companies like Tris Pharma, Capsugel, Quest Diagnostics and AT&T.
I also maintain/update/customize plenty of websites using CMS such as Wordpress, ExpressionEngine, CraftCMS, ModX, Magnolia and much more. I am responsible for plenty of Quest diagnostics web requests, I maintain strong relationships with the clients as I deal with them directly and work with them to deliver high quality results and have successful outcomes.
I also develop custom static and responsive email templates for companies like AT&T and Capsugel as well as Quest. I program custom functionalities and develop micro web applications for a lot of pharmacies/health care companies. Have strong knowledge in responsive frameworks such as Bootstrap and Foundation, big fan of organized programming - Fluent with PHP and working with MVC structures, as well as PHP frameworks such as Laravel.

### Freelance Web Developer

Self-Employed  -  Perth Amboy, NJ  -  May 2013 to Present

I have been a freelance web designer since the age of 16, I am a self-taught web developer & designer, I've managed/designed/developed websites throughout my high school years and loved every second of it. I have done work for local companies as well for customers online around the world.

### Contract Web & Graphic Designer for Graphics Impex

Graphics Impex  -  Old Bridge, NJ  -  October 2015 to December 2015

I was hired for a short period of time to design Email templates, banners, and maintain the company website which used Wordpress.

### Significant Projects:
BrickVPS

At the age of 13 I started a virtual host provider, I had purchased a dedicated server where I started to host the virtual servers (VPS), I acquired several customers during the first month of launch given the affordable prices and referrals. During this period I gained experience in customer service and other perks along the way.
