# Anjum Faraz
**Software Engineer**

Austin, TX  -  Email me on Indeed: indeed.com/r/Anjum-Faraz/e6a2d5edb38af343

I am a young professional looking to join a collaborative and innovative team. Coming from a background in Information Systems, I have worked hard to develop a strong understanding of CS fundamentals with the skills to work front end JavaScript frameworks (React, Angular) along with back end tools like (Node.js, express).
Willing to relocate: Anywhere
Authorized to work in the US for any employer

WORK EXPERIENCE

### Web Developer
Freelance Software Developer   -   Austin, TX  -  November 2016 to Present

Working on various different web projects as a freelance developer.

### Software Engineer
Hack Reactor   -   Austin, TX  -  July 2016 to October 2016

Advanced Software Engineering Immersive Program with 650+ hours of programming and learning.

### Application Developer
Empyrean Benefit Solutions   -   Houston, TX  -  October 2015 to June 2016

During my time at Empyrean, I handled three clients and worked with their vendors on a daily basis. I utilized JavaScript and Microsoft SQL Server to resolve issues in data and web applications. I regularly provided quality analysis and data checks on the in-house software and completed change orders by modifying existing programming logic, resulting in an estimated $5k-$10k in company revenue.

### Technical Business Analyst
MoneyGram International   -   Houston, TX  -  March 2014 to September 2015

At MoneyGram International, I had the responsibility of managing two employees, documenting technical requirements, and producing weekly financial summaries.

### IT Consultant
The Citizen's Foundation   -   Houston, TX  -  September 2014 to February 2015

My work at the Citizen's Foundation involved managing the full software development lifecycle from ideation to sprints to deployment. I worked with a team of three other students to design and integrate a database system to store donor information and transactions. I also used VB.NET to create an automated tool which helped streamline their financial reporting.

### Corporate Development Intern
Houston Rockets   -   Houston, TX  -  August 2013 to March 2014

During my internship with the Houston Rockets, I maintained a detailed database of all corporate clients and prospects. I also handled key relationships with high-profile corporate clients for the Houston Rockets Suites Department.

### Marketing & Research Intern
Consolidated Graphics   -   Houston, TX  -  September 2012 to January 2013

• Researched data and statistics of university students' interests through various projects.
• Created and presented presentation on how to increase on campus awareness for the company.
